PowerOptimal PowerGuard CPM-SDB specification

INTRODUCING THE PowerGuard® CPM-SDB

PowerGuard CPM-SDB doubles as a shed control signal amplifier or shed signal restorer when coupled to a PowerGuard CPM-XC10 transceiver.

As an amplifier, the unit can enhance coverage of a PowerGuard load management installation by up to a further 400 receiver points per amplifier.

Connected to the PowerGuard CPM-XC10 transceiver, the unit will restore and echo the original shed signal to drive up to 400 PowerGuard shed receivers.

SPECIFICATIONS

SPECIFICATIONS

- Power: 230 Volts AC
- Consumption: < 30 Watts
- Dimensions: 200 x 120 x 75 mm less aerial
- Weight: 1 kg
